PROFESSIONAL SUMMARY

Java Backend Developer with 2+ years of experience designing and building scalable Spring Boot microservices and REST APIs. Proficient in database optimization, design patterns, and event-driven architecture with Apache Kafka. Passionate about writing clean code and improving system performance

TECHNICAL SKILLS

Languages: Core Java, Java 8, HTML5, CSS3, JavaScript, SQL, C++

Frameworks & Libraries: Spring Boot, Spring Security, Hibernate, JSP, Servlets, JDBC, Microservices

Testing & QA: JUnit 5, Mockito, Postman (API Testing), Manual Testing, Debugging

Tools & Technologies: MySQL, REST APIs, Apache Kafka, Docker, Git, Postman, IntelliJ, WordPress

WORK EXPERIENCE

Java Developer | Fourise Software Solutions Pvt. Ltd., Pune | Oct 2023 – Nov 2025

- Developed and maintained multiple Spring Boot Microservices within a Service-Oriented Architecture enhancing system scalability and performance.
- Engineered a modular payment gateway integration layer using the Factory Design Pattern, reducing maintenance effort by 40% and increasing code reusability across multiple clients.
- Optimized MySQL queries and JPA mappings through indexing and query tuning, cutting average API response time by 30%.
- Implemented Global Exception Handling and centralized logging, enhancing API Stability and streamlining production troubleshooting.
- Designed transaction processing and webhook handling for real-time asynchronous updates using Apache Kafka, ensuring 99.9% message delivery reliability.
- Validated business logic by building unit and integration tests with JUnit 5 and Mockito, achieving 85% code coverage.
- Collaborated with frontend and QA teams to deliver secure, scalable REST APIs aligned with business requirements.

PROJECTS

Complaint Management System – Spring Boot, RESTful APIs, MySQL, HTML5, CSS3, JavaScript | [Link](#)

- Developed 20+ secure RESTful APIs using Spring Boot and Spring Security, implementing Role-Based Access Control (RBAC), secure login, password reset, and full CRUD operations with seamless frontend.

Payment Integration System – Spring Boot, RESTful APIs, MySQL, HTML5, CSS3, JavaScript | [Link](#)

- Developed backend REST APIs for transaction management with advanced filtering by date, amount.

Shipping Agency Website– HTML5, CSS3, Bootstrap | [Link](#)

- Designed a responsive user interface for shipping services, including login and signup flows.

EDUCATION

Bachelor of Engineering (B.E.) in Electronics & Communication Engineering | 2018 – 2022

VSM's SRK Institute of Technology, Nipani | Visvesvaraya Technological University, Belagavi | CGPA: 8.0

Academic Achievement: Ranked in the Top 3% of the engineering class.

CERTIFICATIONS & ACHIEVEMENTS

- Java Full Stack Development Certification and Web Development Internship Completion.
